

## Certificate Service Conformation

### To Whom It May Concern

Landmark Research provided comprehensive editing services for Manuscript NO: 80790 (Real-world five-year outcomes of FlexyRap® cobalt-chromium rapamycin-eluting stents with biodegradable polymer in patients with de-novo coronary artery disease) by Ms. Preeti Vani, which is under consideration for publication in your journal. The edit has achieved Grade A: priority publishing; no language polishing is required after editing.

Should you require any additional information, please do not hesitate to contact me.
