Confirmation Letter for Statistical Review

I, Dr. Yunhee Choi in division of Biostatistics in Medical Research Collaborating Center (MRCC), certifies that statistical analysis of the article entitled "*The new rt269L2 type in rt269 codon of Hepatitis B Virus (HBV) polymerase is related to lowered HBV replication and enhanced fibrosis from chronic patients with genotype C2 infections*" was performed and the reporting and interpretation of the result of analysis was reviewed at our division of Biostatistics in MRCC.

Sincerely yours,

Choi, Yunhee, PhD
