### **SPECIFIC COMMENTS TO AUTHORS**

This review article summarized factors related to bowel preparation and provided suggestions for hard-to-prepare patients. Overall it was well written. The specific clinical settings were well reviewed and organised. The table 1 provided the recommendation for these specific settings. However, the references for supporting the recommendation should be provided in the table 1.

### **SPECIFIC COMMENTS TO AUTHORS**

This article on enteric-related is devoted to analyzing the factors affecting intestinal preparation difficulties, providing more effective intestinal preparation schemes for enteric-related surgery and colonoscopy. It clarifies the causes of intestinal preparation difficulties respectively from the aspects of drug dosage form, diet, program selection, examination timing needle and different populations, and provides corresponding schemes with clear structure. Personalized intestinal preparation is of great significance for clinical guidance. For the article chart, more illustrations will be more popular with readers.
