World Journal of Gastroenterology

Manuscript # 82103: “**Review of lymphoma in the duodenum: an update of diagnosis and management**” by Iwamuro et al. (Number ID: 04093521).

Dear Dr. Ma:

We would like to resubmit our revised manuscript for consideration for publication in *World Journal of Gastroenterology*. We have carefully considered all of the comments of the reviewers and addressed the reviewers' concerns as thoroughly as possible. Point-by-point responses to the comments of the reviewers are given below. We hope you will find our revised manuscript suitable for publication in *World Journal of Gastroenterology*. Thank you for your consideration.

Sincerely yours,

Masaya Iwamuro, MD

Manuscript #82103: “**Review of lymphoma in the duodenum: an update of diagnosis and management**”

Point-by-Point Responses to the Reviewers' Comments

Reviewer #1:

Scientific Quality: Grade B (Very good)

Language Quality: Grade A (Priority publishing)

Conclusion: Accept (General priority)

Specific Comments to Authors: This is the well written mini-review of duodenal lymphoma.

Response: We thank the reviewer for taking the time to review our manuscript.

Reviewer #2:

Scientific Quality: Grade C (Good)

Language Quality: Grade B (Minor language polishing)

Conclusion: Minor revision

Specific Comments to Authors: In this manuscript, the authors present a minireview about update of diagnosis and management of duodenal lymphoma. The title is complete and informative however since this manuscript is a review I suggest adding this word to the title.

Response: We would like to thank the reviewer for taking the time and effort necessary to review the manuscript. I have added the term “Review of” to the title.

The abstract is complete and informative. Introduction: This part is complete. I would only add some epidemiology like the cumulative incidence of duodenal lymphoma. The Discussion part is complete and informative. The topic is not novel, however, the review is interesting and contains up-to-date information. English review is needed for some errors in the text.

Response: We have added incidence of duodenal lymphoma to the Introduction section. Our manuscript was thoroughly edited and proofread by a native English speaker of English editing service (Editage).
