SPECIFIC COMMENTS TO AUTHORS

Nicely written manuscript. Pls add close follow up in patients whose initial imaging like CT scan is normal on the flow chart. There are cases where mild collection is overlooked by radiologist reported as normal and patient then visits another hospital since primary surgeon has said “ All is well “. Pls add specific treatment algorithm for Strasberg Gade C, D, E like it’s mentioned for A and B Also concise the text avoid repetitions.

SPECIFIC COMMENTS TO AUTHORS

Thank you for submitting this mini review. It is well summarized and contains general approach to cystic and CBD injuries. It needs a bit of language polishing regards grammar and percent signs. Thanks
