Title: Exercise in patients coping with breast cancer: an overview

Author: Sibel Eyigor, Selcen Kanyılmaz

Name of Journal: *World Journal of Clinical Oncology*

ESPS Manuscript NO: 8340

Dear Editor, we totally understand your request for language guarantee by the companies you have agreement with, however, it is quite difficult for us to perform and afford such a service at the moment. We have performed language re-evaluation with our local professional editing company and we guarantee for the optimal level of language. We are pleased for your kind appreciation.

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewers:

- 1) Recommended articles were reviewed and referenced
- 2) Introduction was improved
- 3) Structure was reviewed and improved, reviewers recommended to structure the article according to PRISMA/QUORUM checklist, however, as the concept of the article was not designed as a systematic review or a meta-analysis, this was not applicable for our article. Considering their suggestions the title was revised as 'overview' and the structure was revised accordingly.
- 4) Terminology regarding patient population mentioned in the article was clarified

3 Lacking references were added and misquoted references were corrected according to the suggestions of the reviewers.

4 Language check and polishing was done and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Clinical Oncology*

Sincerely yours,

A handwritten signature in black ink, consisting of a series of loops and a long horizontal stroke, positioned above a solid horizontal line.
