

Manuscript no. 8423.

Post liver transplant HCV recurrence: an unresolved thorny problem.

English language and form of the above mentioned manuscript have been widely revised, even by a native speaker of English (Dr. Andrew J. Lawless, Bachelor's degree in English Literature).

Hence, I believe that the language has reached Grade A and I would like to sign a guarantee about that.

Rimini, April 11, 2014

Alberto Grassi

A handwritten signature in blue ink, reading "Alberto Grassi". The signature is written in a cursive, flowing style with a horizontal line at the end.
