The Human Investigation Review Board on its last meeting discussed the ethical relations of the research proposal to be carried out at the Department of

Dr. habil Rosztóczy András PhD egyetemi docens
Szegedi Tudományegyetem, Szent-Györgyi Albert Klinikai Központ
I.sz. Belgyógyászati Klinika
(6720 Szeged, Korányi fasor 8-10.)

The title of the proposed project is:

Zománc szerkezeti változások refluxban szenvedő páciensek esetén.

The scheme of the experiments complies with the ethics of research. It agrees with the declaration of the Medical Word Federation proclaimed in Helsinki in 1964, therefore, the Human Investigation Review Board does not raise any objection to it from ethical point of view and supports it.

Szeged, 17-Jun-2019

Dr. Wittmann Tibor
President of the
Human Investigation Review Board
University of Szeged
Hungary
