Reviewer #2:

Scientific Quality: Grade B (Very good)

Language Quality: Grade B (Minor language polishing)

Conclusion: Accept (General priority)

Specific Comments to Authors: Dear Authors, in the era of DM and obesity global rise, scientific attention to both topics and finding new pathophysiological insights and potential treatment targets is of utmost importance. Therefore, your review is adding knowledge to the field. I suggest publication.

Dear reviewers and editors：

Thank you very much for taking time to read and modify my article. Thank you for your valuable suggestions. I have carefully studied the comments of yours and carefully revised the paper item by item according to the suggestions.

1. I have revised the Chinese and English abstracts to make the language more refined;

2. Presention for figures has been revised to uniform format;

3. I have polished the English language and acquired the English Language Certification issued by MedE company according to the editor's advice.

Finally, thank you again for your guidance. I hope I can complete a good paper with your help. I sincerely hope my paper can be published in your journal.

Yours sincerely,

Yichen Guo
