SPECIFIC COMMENTS TO AUTHORS

In this study, the authors evaluated the safety and efficacy of ERCP for diagnosing and treating biliary and pancreatic diseases in pediatric patients. The study is well designed and the results are interesting. Minor comments: 1. The manuscript requires a minor editing. 2. Please add subtitles to the results section. 3. The title “Conclusion” is missing in the main text. 4. References list should be updated with PMID numbers and DOIs. 5. The figure 1 is not mentioned and referred in the text.

SPECIFIC COMMENTS TO AUTHORS

This is an interesting study of ERCP for diagnosing and treating pediatric biliary and pancreatic diseases. The aim of the study is clear, and the methods are clearly described. The findings in this study are well displayed, and discussed. The reviewer recommends to accept this study after a minor editing.
