General Information of the Manuscript

Manuscript NO.: 89653

Column: Retrospective Study

1

Name of journal: World Journal of Diabetes

[Y]

	Title: Adherence to Advisory Committee on Immunization	
	Practices in diabetes mellitus patients in Saudi Arabia: A	
	multicenter retrospective study	
	Authors: Saleh Fahad Alqifari, Aya K Esmail, Dalal M Alarifi,	
	Ghalya Y Alsuliman, Maram M Alhati, May R Mutlaq, Mohammed	
	Aldhaeefi, Shaden A Alshuaibi, Palanisamy Amirthalingam, Abrar	
	Abdallah, Afaf S Wasel, Heba R Hamad, Shoroq Alamin, Tasneem	
	H Atia and Tariq Alqahtani	
	Reviewer code: 05299889	
	First decision: 2023-12-26 04:50	
	Editorial Office's Comments	
	Science Editor: There are two issues need to address, please	
	address in a week. 1. Please provide the decomposable figure of	
	figures, whose parts are all movable and editable, organize them	
	into a PowerPoint file, and submit as "Manuscript NoFigures.ppt"	
	on the system, we need to edit the text in the figures. All submitted	
	figures, including the text contained within the figures, must be	
2	editable. Please provide the text in your figure(s) in text boxes. 2.	[Y]
	Please provide Tables in a word file.	
	Company Editor-in-Chief: I have reviewed the Peer-Review	
	Report, full text of the manuscript, all of which have met the basic	
	publishing requirements of the World Journal of Diabetes, and the	
	manuscript is conditionally accepted. I have sent the manuscript to	
	the author(s) for its revision according to the Peer-Review Report,	
	Editorial Office's comments and the Criteria for Manuscript	
	L'anoriai Office 5 continents and the Citteria foi Manuscript	

	Revision by Authors. When revising the manuscript, it is recommended that the author supplement and improve the highlights of the latest cutting-edge research results, thereby further improving the content of the manuscript. To this end, authors are advised to apply PubMed, or a new tool, the RCA, of which data source is PubMed. RCA is a unique artificial intelligence system for citation index evaluation of medical science and life science literature. In it, upon obtaining search results from the keywords entered by the author, "Impact Index Per Article" under "Ranked by" should be selected to find the latest highlight articles, which can then be used to further improve an article under preparation/peer-review/revision. Please visit our RCA database for more information at: https://www.referencecitationanalysis.com/, or visit PubMed at:	
3	https://pubmed.ncbi.nlm.nih.gov/. The fixed headings are copied.	[Y]
4	The title concisely summarizes the main topic of the study and is not too long (no more than 18 words). Words such as 'exploration', 'research', 'analysis', 'observation', and 'investigation' are avoided. The title does not start with 'The' and does not include any Arabic numbers or uncommon abbreviations.	[Y]
5	A short running title is provided (no more than 6 words).	[Y]
6	The authors' full family (sur)names and full/abbreviated first names are listed on the title page and are consistent with those listed in the signed BPG Copyright License Agreement form.	[Y]

7	The 'Author contributions' passage describes the specific contribution(s) made by each author. The author's names are listed in the following format: full family (sur)name followed by abbreviated first and middles names. <i>e.g.,</i> "Wang CL and Liang L contributed equally to this work; Wang CL, Liang L, Fu JF, Zou CC, Hong F and Wu XM designed the research study; Wang CL, Zou CC, Hong F and Wu XM performed the research; Xue JZ and Lu JR contributed new reagents and analytic tools; Wang CL, Liang L and Fu JF analyzed the data; and Wang CL, Liang L and Fu JF wrote the manuscript. All authors	[Y]
	have read and approve the final manuscript."	
8	The 'Supported by' statement describes the source(s) of financial support and includes the corresponding identification number(s) and program ID(s) if available, and contains no spelling errors.	[N]
9	The 'Corresponding author' passage provides the corresponding author's full first and family (sur)names, abbreviated title (<i>e.g.</i> , MD, PhD), affiliated institute's name and complete postal address (including zip code) and e-mail (written in all lowercase), and contains no spelling errors.	[Y]
10	The Manuscript Tracking information (<i>i.e.</i> , Received, Peer review started, First decision, Revised, Accepted, Article in press, and Published online) are provided along with the corresponding editor and date for each item, and contain no spelling errors.	[Y]
11	The Abstract section is formatted according to the article-specific style (structured <i>vs</i> unstructured) and word count thresholds, as follows: <u>Commentary, Frontier, Diagnostic Advances, Medical Ethics,</u> <u>Minireview, Review, Therapeutics Advances, and Topic Highlight</u> : Non-structured abstract that is no less than 200 words. <u>Field of Vision, Case Report and Letter to the Editor</u> :	[Y]

	Non-structured abstract that is no less than 150 words.	
	Research articles: Structured abstract with subsections for AIM (no	
	more than 20 words); METHODS (no less than 80 words); RESULTS	
	(no less than 120 words); and CONCLUSION (no more than 26	
	words).	
	The 'Key words' list provides 5-10 keywords that reflect the main	
12	content of the study. The first letter of each keyword is capitalized,	[Y]
	and each keyword is separated by a semicolon.	
	The "citation" contains authors' names and manuscript title. The	
	name of the first author should be typed in bold letters; the family	
	(sur) name of all authors should be typed with the first letter	
	capitalized, followed by their abbreviated first and middle initials.	
13	For example, an article by Jae Moon Yoon, Ki Young Son, Chun Sick	[Y]
	Eom, Daniel Durrance, Sang Min Park will be written as Yoon JM,	
	Son KY, Eom CS, Durrance D, Park SM. Pre-existing diabetes	
	mellitus increases the risk of gastric cancer: A meta-analysis. World J	
	Gastroenterol 2019; In press	
	The 'Core tip' provides a summary (less than 100 words) of the	
14	study that outlines the most innovative and important arguments	
14	and core contents of the paper and will serve to effectively attract	[Y]
	readers.	
	The 'INTRODUCTION' section clearly describes the relevant	
	background information for the study. Only the most relevant and	
	current (within the past 5 years) literature is cited, with the	
15	exception of rare instances of seminal literature citations. All	
	technical terms and/or abbreviations are explained and/or defined,	[Y]
	with the full name of abbreviations given upon first appearance in	
	the text and the abbreviation presented in parentheses [i.e.,	
	"computed tomography (CT)"]. First-person pronouns (e.g., 'I',	
	'we') are used appropriately to clearly indicate the work performed	
	·	

	by the author(s). When weaknesses of previous studies are described in the text to highlight the innovations related to the current study, the information is presented carefully.	
16	The 'MATERIALS AND METHODS' section clearly and accurately describes all materials and methods used to obtain the data presented in the article and is adequate for a reader to repeat the study.	[Y]
17	The 'RESULTS' section concisely describes the observational and experimental results. Representative data and data that have scientific significance are emphasized. Data is presented in either the text, a table or figure (<i>i.e.</i> , chart, diagram, graph or image), but is not repeated among each. Information presented in the tables and figures clearly describes the trends, meaning, and inferences. Results described in textual form are accurate, concise and clear.	[Y]
18	Statistical symbols are accurate. Statistical significance is expressed as ${}^{a}P < 0.05$, ${}^{b}P < 0.01$ ($P > 0.05$ usually does not need to be denoted). If there are other series of P values, ${}^{c}P < 0.05$ and ${}^{d}P < 0.01$ are used, and a third series of P values is expressed as ${}^{e}P < 0.05$ and ${}^{f}P < 0.01$. Statistical data is expressed as mean ± SD or mean ± SE.	[Y]

	The 'DISCUSSION' section (1) describes the main purpose and	
	hypothesis of the study; (2) summarizes the most important results;	
	(3) illustrates and explains the results (but does not simply repeat	
19	the data) and draws conclusions or inferences based on the results;	[1]
19	(4) points out the limitations of the study and their impact on the	[Y]
	results, as well as proposes further advice on future research	
	topic(s) or direction(s); and (5) describes the theoretical significance	
	and practical value of the findings.	
	The 'ACKNOWLEDGEMENTS' section expresses gratitude to any	
	individuals or organizations for technical support (i.e., providing	
20	instrumentation, equipment or experimental materials, and/or	5 × 1
20	assistance in experimental work), non-technical services (i.e., useful	[N]
	inspiration, suggestions, guidance, or review), and/or any other	
	auxiliary work.	
01	The 'ARTICLE HIGHLIGHTS' section provides comments for	[Y]
21	original articles in accordance with the specified format.	
	The 'REFERENCES' section lists the references in the Vancouver	
	style. This style uses Arabic numeral in-text citations based on the	
	order of the first appearance of a source in the text. For citations	
	where the author's name is indicated in the text, a superscript	[Y]
	number should be placed following the name (<i>i.e.</i> , "Pang <i>et al</i> "). For	
	citations where no author is indicated, a superscript number should	
22	be placed at the end of the sentence. Respective examples are: "Ma ^[1]	
	reported", "Pan et al ^[2-5] indicated"; "PCR has a high	
	sensitivity ^[6,9] ." No superscript numbers are used when the	
	reference number is described in the text; for example, "The	
	experimental method used has been described in reference [8]." The	
	style of reference citations in tables is the same as that in the text	
	(<i>e.g.</i> , Pan <i>et al</i> ^[2-5] , please see reference [8]).	

Journal references have been verified to ensure that there are no duplicate references and that the PMID numbers are correct. For references not yet included in PubMed: the name of Chinese journals is spelled out using Chinese Pinyin, with the first letter of each word capitalized (<i>e.g., Shijie Huaren Xiuohua Zazhi</i>); the name of journals in other languages are listed according to indexing information retrieved from Google. Book references are presented with all the information relevant to the electronic version.[Y]24The number of cited references is appropriate for the article type, as follows: Commentary: no less than 50; Review: no less than 100; Article: no less than 30/26; Case Report and Letter to the Editor; no less than 1.[Y]25The ethics-related statements are provided in accordance with the manuscript type (<i>e.g., Paeviewer: Hugot D S-Editor: Wang JD.</i> [Y]26The order and numerical labeling of tables and figures is consistent with their appearance and presentation in the text. Symbols in tables (<i>e.g., t., x, t., t.</i>) correctly correspond to the definitions in the footnotes. Only one legend is provided for each multi-panel figure consisting of color graphs, black and white graphs, or line graphs that depicts data of the same theme. For example: Figure 1 Pathological changes in atrophic gastritis tissue before and after treatment. A:, B:; C:; D:; E:; F:[Y]28Split pictures include flow charts, line graphs, histograms, and graphs including text. Unsplit pictures include meta-analysis[Y]			
23 journals is spelled out using Chinese Pinyin, with the first letter of each word capitalized (e.g., Shijie Huaren Xiaohua Zazhi); the name of journals in other languages are listed according to indexing information retrieved from Google. Book references are presented with all the information relevant to the electronic version. [Y] 24 The number of cited references is appropriate for the article type, as follows: [Y] 24 Commentary; no less than 50; Review; no less than 100; Article; no less than 30/26; [Y] 25 The ethics-related statements are provided in accordance with the manuscript type (e.g., Manuscript No-Institutional review board statement, Manuscript No-Animal care and use statement, etc.). [Y] 26 The names of the peer reviewers and the scientific editor are present at the end of the paper (e.g., P-Reviewer: Hugot D S-Editor: Wang JL). [Y] 27 The order and numerical labeling of tables and figures is consistent with their appearance and presentation in the text. Symbols in tables (e.g., +, -, ×, +, *) correctly correspond to the definitions in the footnotes. Only one legend is provided for each multi-panel figure consisting of color graphs, black and white graphs, or line graphs that depicts data of the same theme. For example: Figure 1 Pathological changes in atrophic gastritis tissue before and after treatment A:; B:; C:; D:; F: 28 Split pictures include flow charts, line graphs, histograms, and [Y] [Y]			
23 each word capitalized (e.g., Shije Huaren Xiaohua Zazhi); the name of journals in other languages are listed according to indexing information retrieved from Google. Book references are presented with all the information relevant to the electronic version. 	28	Split pictures include flow charts, line graphs, histograms, and	[Y]
		graphs including text. Unsplit pictures include meta-analysis	

	diagrams, PCR amplification curves, and survival curves.	
29	The author(s) highlighted the changes made to the manuscript	FN (2)
	according to the peer-reviewers' comments.	[Y]
30	The responses to the peer-reviewers' comments are consistent with	[Y]
50	the changes made to the manuscript.	[1]
	The revised manuscript is provided (file name: Manuscript	
	NoReview; e.g., 870- Review).	
31	The letter of peer-reviewers' comments is provided (file name:	[1]
51	Manuscript NoPeer-review(s); e.g., 870-Peer-review(s)).	[Y]
	The response letter is provided (file name: Manuscript	
	NoAnswering reviewers; e.g., 870-Answering reviewers).	
	The related ethics and relevant documents are provided, such as (1)	
	Approved grant application form(s) or funding agency copy of any	
	approval document(s) (file name: Manuscript NoGrant application	
	form(s)); (2) Biostatistics review certificate (file name: Manuscript	
	NoBiostatistics statement); (3) Conflict-of-interest statement (file	
	name: Manuscript NoConflict-of-interest statement); (4) Clinical	
20	trial registration statement (file name: Manuscript NoClinical trial	
32	registration statement); (5) Institutional review board approval form	[Y]
	or document (file name: Manuscript NoInstitutional review board	
	statement); (6) Institutional animal care and use committee	
	approval form or document (file name: Manuscript	
	NoInstitutional animal care and use committee statement), and (7)	
	Signed informed consent form(s) or document(s) (file name:	
	Manuscript NoInformed consent statement).	
33	All authors signed the BPG Copyright license agreement form (file	
	name: Manuscript NoCopyright license agreement; e.g.,	[Y]
	870-Copyright license agreement).	
34	The language certificate provided by authors who are non-native	
	speakers of English meets the BPG requirements (file name:	[Y]

		[
	Manuscript NoLanguage certificate; <i>e.g.</i> , 870-Language certificate).	
35	The photos licensed in the Agreement for Use of Personal Photos are consistent with those in the paper (file name: Manuscript NoAgreement for use of personal photos; <i>e.g.</i> , 870-Agreement for use of personal photos).	[N]
36	This document (Checklist of Responsibilities for Scientific Editors) has been saved under the file name: manuscript NoScientific editor work list (<i>e.g.</i> , 870-Scientific editor work list).	[Y]
37	A <i>CrossCheck</i> investigation (an effective tool for detecting unoriginal content, enabling our editors to preserve the journal's integrity and the authors' copyright) has been performed for the manuscript <i>via</i> the website: http://www.ithenticate.com/. The results document contains the following information for the manuscript: "Name of journal", "Manuscript No.", "Columns", "Title" and "Author list". The Figure of the <i>CrossCheck</i> results is saved in JPEG format (.jpg) at 1440 × 680 pixel resolution. The PDF of the <i>CrossCheck</i> results has been saved under the file name: manuscript No CrossCheck report (<i>e.g.</i> , 870-CrossCheck report). The Google searches have also been performed to further ensure publication of original content.	[Y]
38	The text of the manuscript is typed in Book Antiqua font, 12 pt, with 1.5 line spacing.	[Y]
Responsibilities of scientific editors	The primary responsibilities of our scientific editors include carefully checking the entire manuscript and all accompanying materials for: (1) errors in spelling, grammar, punctuation and wording; (2) suitability of tables, figures, figure data and legends; (3) accurate and appropriate presentation of symbols (<i>e.g.</i> +, -, ×, \div , %, *) in tables and figures; and (4) complete and comprehensive revision of the manuscript according to the reviewers' comments.	

	Manuscript reception and registration-Initial review by scientific editor-Peer	
	review \rightarrow End of peer review \rightarrow First round of meeting evaluation \rightarrow To be	
	accepted \rightarrow Revision by the author(s) \rightarrow Second round of meeting evaluation \rightarrow To be	
	accepted/revised/rejected \rightarrow Final review by the Editor-in-Chief (final quality	
Publication	control for academic content and language quality) \rightarrow Final acceptance and charging	
process	of publication fee \rightarrow Language editing \rightarrow Production \rightarrow Proofreading by scientific	
	editor \rightarrow Proofreading by deputy editor \rightarrow Final review by Editor-in-Chief \rightarrow Release	
	of online open-access papers in electronic form on the BPG website \rightarrow Release of	
	online papers on PubMed Central→Delivery of high-quality PDF reprints to the	
	author(s) \rightarrow End of the publication process.	
	¹ Ethics and Relevant Document Handling Time	
	For the checking of the ethics and relevant document, the editing fee should be	
	calculated independently to the Scientific Editor. The handling time of the ethics	
Notes	and relevant documents for clinical and basic researches is calculated as 3 hours, for	
Notes	case reports and other types of manuscript is calculated as 2 hours.	
	If any errors are found in ethics and relevant document after a manuscript is	
	published, the Scientific Editor's one day Welfare provided by the Baishideng	
	Publishing Group will be deducted.
