## SPECIFIC COMMENTS TO AUTHORS

This paper discussed the occurrence and long-term follow-up of pseudoaneurysm after transarterial detachable balloon for TCCF. However, a few questions need to be addressed: 1. As a retrospective study, this paper should include a flow chart to explain how the patients enrolled. 2. In the METHODS, the inclusion and exclusion criteria should be described. The methods of data collection and data analysis should also be described in the METHODS part.
