

Point-by-point response to Reviewer#1

Reviewer #1:

Scientific Quality: Grade B (Very good)

Language Quality: Grade A (Priority publishing)

Conclusion: Accept (General priority)

Specific Comments to Authors:

This is an interesting manuscript about the functions of mucins on cholangiocarcinoma. The authors have investigated the functions of MUC1, MUC4, MUC5AC, MUC5B, MUC13, and MUC16. This manuscript is nicely structured and well written. I have no question about this manuscript.

R: We are really grateful for the reviewer's positive comments. Thank you so much.
