Item No.	Specific items for verification	Yes=[Y]
		No= [N]
	General Information of the Manuscript	
	Name of journal: World Journal of Clinical Cases	
	Manuscript NO.: 92104	
	Column: Minireviews	
1	Title: Research progress on venous thrombosis development in	D.4
1	patients with malignant tumors	[Y]
	Authors: Teng-Fei Wang, Qian Chen, Jie Deng, Shi-Liang Li, Yuan	
	Xu and Si-Xing Ma	
	Reviewer code: 02846571	
	First decision: 2024-02-23 04:51	
	Editorial Office's Comments	
	Science Editor: Remind Revision at 2024-03-02 08:41	
	Company Editor-in-Chief: I recommend the manuscript to be	
	published in the World Journal of Clinical Cases. When revising the	
	manuscript, it is recommended that the author supplement and	
2	improve the highlights of the latest cutting-edge research results,	[Y]
	thereby further improving the content of the manuscript. To this	
	end, authors are advised to apply PubMed, or a new tool, the	
	Reference Citation Analysis (RCA), of which data source is	
	PubMed. RCA is a unique artificial intelligence system for citation	
	index evaluation of medical science and life science literature. In it,	

Telephone: +1-925-399-1568 **E-mail:** office@baishideng.com

	upon obtaining search results from the keywords entered by the	
	author, "Impact Index Per Article" under "Ranked by" should be	
	selected to find the latest highlight articles, which can then be used	
	to further improve an article under	
	preparation/peer-review/revision. Please visit our RCA database	
	for more information at:	
	https://www.referencecitationanalysis.com/, or visit PubMed at:	
	https://pubmed.ncbi.nlm.nih.gov/.	
3	The fixed headings are copied.	[Y]
	The title will concisely summarize the main topic of the study,	
	being not overly long (no more than 18 words). Words such as	
4	'exploration', 'research', 'analysis', 'observation', and 'investigation'	[Y]
	are to be avoided. The title should not start with 'A', 'An', or 'The'	
	and will not include any Arabic numbers or abbreviations.	
5	A short running title is provided (no more than 6 words).	[Y]
	The authors' full family (sur)names and full/abbreviated first	
6	names are listed on the title page and are consistent with those	[Y]
	listed in the signed Copyright License Agreement form.	
	The 'Author contributions' passage describes the specific	
	contribution(s) made by each author. The author's names are listed	
	in the following format: full family (sur)name followed by	
	abbreviated first and middles names.	
	e.g., "Wang CL and Liang L contributed equally to this work; Wang	
7	CL, Liang L, Fu JF, Zou CC, Hong F and Wu XM designed the	[Y]
	research study; Wang CL, Zou CC, Hong F and Wu XM performed	
	the research; Xue JZ and Lu JR contributed new reagents and	
	analytic tools; Wang CL, Liang L and Fu JF analyzed the data; and	
	Wang CL, Liang L and Fu JF wrote the manuscript. All authors	
	have read and approve the final manuscript."	

Telephone: +1-925-399-1568 **E-mail:** office@baishideng.com

The 'Supported by' statement describes the source(s) of financial support and includes the corresponding identification number(s) [Y]
]
1 170/10 1111 1 111	
and program ID(s) if available, and contains no spelling errors.	
The 'Corresponding author' passage provides the corresponding	
author's full first and family (sur)names, abbreviated title (e.g., MD,	
9 PhD), affiliated institute's name and complete postal address [Y]
(including zip code) and e-mail (written in all lowercase), and	
contains no spelling errors.	
The Manuscript Tracking information (i.e., Received, Peer review	
started, First decision, Revised, Accepted, Article in press, and	
Published online) are provided along with the corresponding editor	J
and date for each item, and contain no spelling errors.	
The Abstract section is formatted according to the article-specific	
style (structured vs unstructured) and word count thresholds, as	
follows:	
Editorial, Frontier, Medical Ethics, Minireview, Review:	
Non-structured abstract that is no more than 200 words.	
Field of Vision, and Letter to the Editor: Non-structured abstract	
that is no more than 150 words.	
11 Research articles: Structured abstract with subsections for [Y]
BACKGROUND (no more than 100 words); AIM (no more than 20	
words); METHODS (no more than 80 words); RESULTS (no more	
than 120 words); and CONCLUSION (no more than 26 words).	
Case Reports: Structured abstract with subsections for	
BACKGROUND (no more than 80 words); CASE SUMMARY (no	
more than 150 words); and CONCLUSION (no more than 20	
words).	
The 'Key words list' will provide 5-10 keywords that reflect the	
main content of the study. Please do not use abbreviations for the]
keywords (e.g. ulcerative colitis, not UC). The first letter of each	

Telephone: +1-925-399-1568 **E-mail:** office@baishideng.com

	1 1 111 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1	
	keyword will be capitalized, and each keyword will be separated by	
	a semicolon.	
	The "citation" contains authors' names and manuscript title. The	
	name of the first author should be typed in bold letters; the family	
	(sur) name of all authors should be typed with the first letter	
	capitalized, followed by their abbreviated first and middle initials.	
13	For example, an article by Jae Moon Yoon, Ki Young Son, Chun Sick	[Y]
	Eom, Daniel Durrance, Sang Min Park will be written as Yoon JM,	
	Son KY, Eom CS, Durrance D, Park SM. Pre-existing diabetes	
	mellitus increases the risk of gastric cancer: A meta-analysis. World J	
	Gastroenterol 2024; In press	
	The Core tip is a short paragraph that is independent of the content	
14	of the Abstract. The 'Core tip' will provide a summary of the study	[V]
14	that outlines the most innovative and important arguments. This	[Y]
	section should be less than 100 words.	
	The 'INTRODUCTION' section clearly describes the relevant	
	background information for the study. Only the most relevant and	
	current (within the past 5 years) literature is cited, with the	
	exception of rare instances of seminal literature citations. All	
	technical terms and/or abbreviations are explained and/or defined,	
15	with the full name of abbreviations given upon first appearance in	[Y]
15	the text and the abbreviation presented in parentheses [i.e.,	[1]
	"computed tomography (CT)"]. First-person pronouns (e.g., 'I',	
	'we') are used appropriately to clearly indicate the work performed	
	by the author(s). When weaknesses of previous studies are	
	described in the text to highlight the innovations related to the	
	current study, the information is presented carefully.	
	The 'MATERIALS AND METHODS' section clearly and accurately	
16	describes all materials and methods used to obtain the data	[N]
	presented in the article and is adequate for a reader to repeat the	

Telephone: +1-925-399-1568 E-mail: office@baishideng.com

The 'RESULTS' section concisely describes the observational and experimental results. Representative data and data that have scientific significance are emphasized. Data is presented in either the text, a table or figure (<i>i.e.</i> , chart, diagram, graph or image), but is not repeated among each. Information presented in the tables and figures clearly describes the trends, meaning, and inferences. Results described in textual form are accurate, concise and clear. Statistical symbols are accurate. Statistical significance is expressed as ^a P < 0.05, ^b P < 0.01 (P > 0.05 usually does not need to be denoted). If there are other series of P values, ^c P < 0.05 and ^d P < 0.01 are used,
experimental results. Representative data and data that have scientific significance are emphasized. Data is presented in either the text, a table or figure (<i>i.e.</i> , chart, diagram, graph or image), but is not repeated among each. Information presented in the tables and figures clearly describes the trends, meaning, and inferences. Results described in textual form are accurate, concise and clear. Statistical symbols are accurate. Statistical significance is expressed as ${}^{a}P < 0.05$, ${}^{b}P < 0.01$ ($P > 0.05$ usually does not need to be denoted). If there are other series of P values, ${}^{c}P < 0.05$ and ${}^{d}P < 0.01$ are used,
experimental results. Representative data and data that have scientific significance are emphasized. 1 41 1 1 (D. 1 1 1 1 1 1 1 1 2 2 2 2 2 2 2 2 2 2 2
and a third series of P values is expressed as $^{e}P < 0.05$ and $^{f}P < 0.01$.
Statistical data is expressed as mean \pm SD or mean \pm SE.
The 'DISCUSSION' section (1) describes the main purpose and
hypothesis of the study; (2) summarizes the most important results;
(3) illustrates and explains the results (but does not simply repeat
the data) and draws conclusions or inferences based on the results; [Y]
(4) points out the limitations of the study and their impact on the
results, as well as proposes further advice on future research
topic(s) or direction(s); and (5) describes the theoretical significance
and practical value of the findings.
The 'ACKNOWLEDGEMENTS' section expresses gratitude to any
individuals or organizations for technical support (i.e., providing
instrumentation, equipment or experimental materials, and/or [N]
assistance in experimental work), non-technical services (i.e., useful
inspiration, suggestions, guidance, or review), and/or any other
auxiliary work.
The 'ARTICLE HIGHLIGHTS' section provides comments for [N]
original articles in accordance with the specified format. If the [N]

Telephone: +1-925-399-1568 **E-mail:** office@baishideng.com

	<u></u>	
	manuscript is an original study (Clinical Study or Basic Study),	
	Evidence-Based Medicine, Meta-Analysis, or Systemic Review, the	
	"ARTICLE HIGHLIGHTS" section is required.	
	The 'REFERENCES' section lists the references in the Vancouver	
	style. This style uses Arabic numeral in-text citations based on the	
	order of the first appearance of a source in the text. For citations	
	where the author's name is indicated in the text, a superscript	
	number should be placed following the name (i.e, "Pang et al"). For	
	citations where no author is indicated, a superscript number should	
22	be placed at the end of the sentence. Respective examples are: "Ma[1]	[Y]
	reported", "Pan et al[2-5] indicated"; "PCR has a high	
	sensitivity ^[6,9] ." No superscript numbers are used when the	
	reference number is described in the text; for example, "The	
	experimental method used has been described in reference [8]." The	
	style of reference citations in tables is the same as that in the text	
	(e.g., Pan et al ^[2-5] , please see reference [8]).	
	References have been edited by Auto-Analyser. Journal references	
	have been verified to ensure that there are no duplicate references	
	and that the PMID numbers are correct. For references not yet	
	included in PubMed: the name of Chinese journals is spelled out	
23	using Chinese Pinyin, with the first letter of each word capitalized	[Y]
	(e.g., Shijie Huaren Xiaohua Zazhi); the name of journals in other	
	languages are listed according to indexing information retrieved	
	from Google. Book references are presented with all the information	
	relevant to the electronic version.	
	The number of cited references is appropriate for the article type, as	
	follows:	
24	Commentary: no less than 50;	[Y]
	Review: no less than 100;	
	Article: no less than 30/26;	

7041 Koll Center Parkway, Suite 160, Pleasanton, CA 94566, USA **Telephone:** +1-925-399-1568 **E-mail:** office@baishideng.com

	Case Report and Letter to the Editor: no less than 1.	
	The ethics-related statements are provided in accordance with the	
25	manuscript type (e.g., Manuscript NoInstitutional review board	[N]
	statement, Manuscript NoAnimal care and use statement, etc.).	
	The names of the peer reviewers and the scientific editor are present	
26	at the end of the paper (e.g., P-Reviewer: Hugot D S-Editor: Wang JL	[Y]
	L-Editor: P-Editor:).	
	The order and numerical labeling of tables and figures is consistent	
	with their appearance and presentation in the text. Symbols in	
	tables (e.g., +, -, \times , \div , *) correctly correspond to the definitions in the	
27	footnotes. Only one legend is provided for each multi-panel figure	[Y]
	consisting of color graphs, black and white graphs, or line graphs	
	that depicts data of the same theme. For example: Figure 1	
	Pathological changes in atrophic gastritis tissue before and after	
	treatment. A:; B:; C:; D:; E:; F:	
	The original figure documents have been provided. The figures	
	have been arranged using PowerPoint to ensure that all graphs or	
28	arrows or text portions can be reprocessed. Split pictures include	[Y]
28	flow charts, line graphs, histograms, and graphs including text.	[+]
	Unsplit pictures include meta-analysis diagrams, PCR amplification	
	curves, and survival curves.	
	Standard three-line tables have been provided, that is, only the top	
29	line, bottom line, and column line are displayed, while other table	
	lines are hidden. The contents of each cell in the table should	[N]
	conform to the editing specifications, and the lines of each row or	
	column of the table should be aligned.
