The manuscript has been improved according to the suggestions of reviewers:

(1) **Comment:** The paper deal with the treatment of H. pylori and its options, the topic is good, and contents are correct scientifically. One very minor point is that some of the statements are hard to understand, even to fluent English language readers. The review paper is purposed to serve the reader with easy understanding, this reviewer recommend the author will polish the language and make it easier to understand for all levels of readers. A few typos are noted in both abstract and tex

**Reply:** We thank the reviewer for his/her valuable comments. Few typos and use of English issues throughout the manuscript were identified and corrected. After revising, our general feeling is that the manuscript is concise and straightforward and easy to understand even for non-native speakers (as the authors of this article).

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,
