Name of Journal: *World Journal of Gastroenterology*

ESPS Manuscript NO: 9984

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated.

2 Revision has been made according to the suggestions of the reviewer

(1) The abstract should be revised accordingly.

Thank you very much. We have revised the abstract.

(2) Table titles should be moved to the end of the text.

Thanks. All Table titles have been moved to the end of the text.

(3) The methods section should be taken attention.

Thanks a lot. There were several limitations about this study. The sample size was small and only five lncRNAs were selected for validation; and therefore the follow-up studies in larger cohorts of patients would be conducted at a later date.

3 References and typesetting were corrected.

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,

Wutao Liu 刘武韬
