

Reviewers comments

1	Methods: provide more information about the type of glass ionomer cement. If it is high viscosity and suitable for ART.	We have used low viscosity GIC for Class III restoration - Information added in manuscript
2.	Were the restorations performed by a single dentist? It is important to describe, as ART treatment is operator dependent. Likewise, clarify whether evaluations of ART restorations were made by a single dentist.	Performed by a single trained dentist and evaluation were done by another single dentist who was not involved in placement of restoration - Information added in manuscript
3	Discussion: Authors should present and discuss the limitations of the study at the end of the discussion.	Limitations of the study added in the manuscript
4	Conclusions: It should be clear that the conclusions refer to class III restorations.	Correction is made in the conclusion part
5	References: Authors should use more recent studies and publications.	More recent reference added in manuscript

Science Editor comments:

1.	The language classification is Grade C. Please visit the following website for the professional English language editing companies we recommend: https://www.wjgnet.com/bpg/gerinfo/240 ;	The professional language editing was done by King Saud university library, Saudi Arabia. Considering the current lockdown situation, we didn't get a certificate from the library.
2	The title is too long, and it should be no more than 12 words;	Title modified according to format
3	The "Author Contributions" section is missing. Please provide the author contributions;	Authors contribution is added in the manuscript

4	The authors did not provide the approved grant application form(s). Please upload the approved grant application form(s) or funding agency copy of any approval document(s);	Due to the lockdown situation, we did not get a copy of the grant.
5	The authors did not provide original pictures. Please provide the original figure documents. Please prepare and arrange the figures using PowerPoint to ensure that all graphs or arrows or text portions can be reprocessed by the editor;	Graphs are modified in PowerPoint
6	The “Article Highlights” section is missing. Please add the “Article Highlights” section at the end of the main text.	Article highlights added

Respected Sir,

We have done the corrections in the manuscript according to the comments by reviewers to the best of our knowledge. Kindly do the needful.

Thank you
