Dear “The Editors” and “The Reviewers”

We would like to express our greatest appreciation for the positive response of our manuscript from “The Editors” and “The Reviewers”. We tried to reply to the queries from “The Editors” and “The Reviewers”. We have added the mechanisms of ACLF and acute kidney injury as well as in the part of the potential drugs. In addition, the manuscript was approved by English native speakers.

Sincerely,

Dr. Wiwat Chanchaoenthana, MD., PhD
