

## **CONFLICT OF INTEREST STATEMENT**

**Name of Journal:** *World Journal of Transplantation*

**ESPS Manuscript NO:** 30296

**Manuscript Type:** Systematic Review

**Systematic review of the negative pressure wound therapy in kidney transplant recipients**

### **Conflict-of-interest statement:**

Part of the manuscript was published in “Negative pressure wound therapy” journal (<http://researchpub.org/journal/npwt/archives-vol1-no2.html>) in 2014, but was retracted by the author intentionally as the journal stopped its production the same year. To make the important information available to the scientific world, the author has thoroughly revised and rewritten with up to date review of publications.

There is no conflict of interest involved.
