Professor David H Adams
Professor of Hepatology
Liver Research Group
5th Floor Institute of Biomedical Research
University of Birmingham
Edgbaston
Birmingham, B15 2TT

28th May 2010

Dear Professor Adams

Study title: Expression and function of immune regulatory proteins in human liver
REC reference: 06/Q2702/61

This study was given a favourable ethical opinion by the Committee on the 21st August, 2006.

It is a condition of approval by the Research Ethics Committee that the Chief Investigator should submit a progress report for the study 12 months after the date on which the favourable opinion was given, and then annually thereafter. To date, the Committee has not yet received the annual progress report / end of study report. It would be appreciated if you could complete and submit the report by no later than 28th June 2010.

Guidance on progress reports and a copy of the standard NRES progress report form is available at <http://www.nres.npsa.nhs.uk/applicants/review/after/progress.htm>

There is also guidance on declaring the end of the study at <http://www.nres.npsa.nhs.uk/applicants/review/after/endofproject.htm>.

[Failure to submit progress reports may lead to a suspension of the favourable ethical opinion for the study.]

06/Q2702/61 - Please quote this number on all correspondence

Yours sincerely

Anne McCullough
Committee Co-ordinator
