Date: 24 July 2019

Dear Dr Lalor

## **ANIMALS (SCIENTIFIC PROCEDURES) ACT 1986**

I am pleased to inform you that the Secretary of State has granted your application for a project licence. The enclosed licence number P078CDFC2 will be valid until 23 July 2024.

Your attention is drawn to any endorsements on, and any additional conditions attached to, the licence. As project licence holder, you must keep an up-to-date record of every personal licence holder working under the authority of the licence. You must be satisfied that their personal licences are valid and are compatible with the procedures and animal types used on the project and with the conditions attached to the project.

If the Secretary of State has determined that your programme of work should be retrospectively assessed, the date of the assessment is specified in the project licence.

Should you wish to vary the terms of this licence in any way, you must apply through ASPeL. You should refer to the ASPeL User Guidance located at: <https://www.gov.uk/research-and-testing-using-animals>

It is the responsibility of the holder of the section 2C Establishment Licence (PEL) to ensure that all scientific procedures conducted at the establishment are authorised by project and personal licences. You will wish, therefore, to copy the project licence to the holder of the section 2C Establishment Licence at each establishment where the project is being undertaken.

Yours sincerely

ASRU Licensing Team

The Home Office, in line with the rest of HMG, has implemented the Government Security Classification (GSC). Details of the GSC can be found at <https://www.gov.uk/government/publications/government-security-classifications>. Please note that documents and emails you receive may contain specific handling instructions.

Handling Instructions: Contains personal sensitive information, subject to confidentiality requirements under the Data Protection Act. This should only be circulated in accordance with ASPA Guidance and stored in a locked secure location. All government information may be subject to an FOI request and subsequent assessment.

FOI: 1004122
