### Biostatistics certificate

Manuscript title: Molecular analysis of pancreatic cystic neoplasm in routine clinical practice.

Authors: Herranz-Pérez R et al.

The statistical analysis of this manuscript was performed by the Biostatistic Service of Health Research Institute Hospital Universitario de La Princesa, Biomedical Research Foundation, Madrid, Spain. This service is part of the Methodology Unit of the Institute and provides manuscript statistical support for its research groups.

The manuscript statistical analysis was performed by me, Lorena Vega-Piris (MSc. Statistics). I've been working since 2010 for the Methodology Unit of Health Research Institute Hospital Universitario de La Princesa as Biostatistician, where one of my main tasks is to provide statistical support to the researchers.

Base on my contribution to the manuscript "Molecular analysis of pancreatic cystic neoplasm in routine clinical practice", I certify that it is suitable for publication.

Madrid, 24<sup>nd</sup> September 2020
