SPECIFIC COMMENTS TO AUTHORS

Please address the following concerns and resubmit your paper: - In the section of Introduction, "...all of which reflect blood glucose at the time of blood collection but are greatly affected by many physiological and pathological conditions." What physiological factors and pathological conditions were affected by the OGTT experiment? Please list them in detail. - In the section of search strategy, why did you search databases for 2 times in Nov. 2019 and Nov. 2020, could you explain about the reason? - In the section of search strategy, there is no mesh word in the search query you have listed. Did you search for Mesh vocabulary, or not find any mesh words about your topic? - It is noted that your manuscript needs careful editing by someone with expertise in technical English editing paying particular attention to English grammar, spelling, and sentence structure so that the goals and results of the study are clear to the reader.
