#### **SPECIFIC COMMENTS TO AUTHORS**

Fernandez-Rodrigues V. et al.: Risk factors for suicide behaviour in late-life depression: A systematic review This is a systematic review of the risk factors of suicidal behaviour in late-life depression. An analysis of the effects of different treatment interventions is also included. As elderly people are in the highest risk of suicide, it is important to have a detailed picture about its risk factors. Treatment interventions can target the modifiable ones of these risk factors. This review is well-designed, correctly conducted according to relevant guidelines. Authors moderately interpreted the results.

#### **SPECIFIC COMMENTS TO AUTHORS**

**Specific Comments** In this paper, the authors report a review of Risk factors for suicide behaviour in late-life depression: A systematic review. The manuscript presents clinically important results. Also, some issues need to be addressed and modified: 1. For better review, it is recommended to add line numbers in the manuscript 2. Statement is not very flow and is slightly less readable. 3.All keywords should be provided according to MeSH terms at: <http://www.nlm.nih.gov/mesh/MBrowser.html>. 4. English grammar is not very excellent but is suitable. Please check your manuscript again
