SPECIFIC COMMENTS TO AUTHORS

Dear Authors, your article is very interesting, well organized and written. You provides valuable review of the microbiome role in carcinogenesis and possible role in the cancer treatment. Explanation of literature search and selection could improve the quality of your article, as the creation of the table with literature review. There is also 2 small letter mistakes in the last sentence of the Section 2 -USEFOR-USE FOR, and in the title of the section 3- carcinogenesis instead of conigenesis.
