Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: DPSC Banking R1-review.doc).

Title: Allogenic banking of Dental Pulp Stem Cells for innovative therapeutics

Author: Pierre-Yves Collart-Dutilleul, Franck Chaubron, John De Vos, Frédéric Cuisinier

Name of Journal: *World Journal of Stem Cells*

ESPS Manuscript NO: 14579

The manuscript has been improved according to the suggestions of reviewers:

Revision has been made according to the suggestions of the reviewer

(1) "Include some endodontic research about this important topic"

A paragraph has been added, about perspective for endodontic regeneration: *Endodontic regeneration*

(2) "The authors should add a paragraph highlighting the distinction between expressing markers of specific cell types and the acquisition of fully functional cells. Also, it should be necessary that the authors add a paragraph indicating that, even when the use of stem cells could replace the lost cells, it does not guarantee that the regenerated cells circumvent the cell death caused by the disease"

We have added a paragraph untitled *From DPSC to successful therapy: Limitations and issues*

Thank you again for publishing our manuscript in the *World Journal of Stem Cells*.

Sincerely yours,

Frédéric CUISINIER, DDS, PhD
