The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

(1) A nice case report about endobronchial tumor presented with pneumonia. The title should be changed to case report and not case series as the number was 3 patients, the authors should mention the number recurrent attacks of pneumonia in each case, otherwise it was a persistent pneumonia.

(2) In the present case report the authors have described 3 children with endobronchial adenoma and a history of recurrent pneumonia. The authors suggested early bronchoscopic evaluation in patients with recurrent pneumonia. This is a nice case report. Minor language errors should be corrected.

3 References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Clinical Pediatrics*.

Sincerely yours,
