To:

Xiaoyan Jiang, MD, PhD,
Editor-In-Chief, World Journal of Hematology (WJH)

Dear Prof. Jiang,

We submit our revised manuscript entitled: "Role of MicroRNA in Regulation of Myeloma-Related Angiogenesis and Survival" to be considered for publication in World Journal of Hematology.

We have revised the manuscript according to the reviewers' suggestions, and included two new figures. We assure you that as Native-English speakers, our manuscript does not need language editing. We also attach below the screenshot of our title using Scholar Google, to show that we did not plagiarize. However, the suggested use of the *CrossCheck* program seems unwarranted, because (1) it has an unjustified cost, and (2) in a minireview, where we highlight different quotes from published paper, some similarities in sentences are bound to appear. However, it is not plagiarism, as long as the original work is cited.

We re-confirm that this minireview has not been submitted for publication elsewhere, and that the authors have no conflict of interest. In addition to the previous cover letter and the statement in the manuscript, we repeat our statement that the authors have no conflict of interests.

We hope that our manuscript will merit publication in World Journal of Hematology.

Sincerely Yours,

Miki Rahat, D.Sc.
