

22235- Answering reviewers:

1)Reviewer's code : 00058378

Thank you very much for your comments.

The Abstract has been shortened following your advice.

Your observation regarding the 'RAR' which is not always performed after dearterialization has been added to the text.

Being an editorial, I believe 'my way to deal with hemorrhoidal disease' should not necessarily be described.

2)Reviewer's code: 00074724

No revision has been requested.

3) Reviewer's code: 03399109

No revision has been requested.

4) Reviewr's code: 00068348

Thank you for your comments.

A comment on the careful selection of patients with grade IV hemorrhoids has been added in the main text and in the summary as you advised.
