

**Management of penile urethral strictures: Challenges and future directions**  
**(Manuscript 22758)**

Dear Editor and Reviewers,

First of all, we want to thank you for reading and reviewing our Manuscript and for making your comments and corrections. We are sure these changes will improve the paper's quality, once accepted for publication in your World Journal of Clinical Urology.

Next, we start detailing the changes made in our manuscript:

REVIEWER 1 (505686)

- Many thanks for your revision and for recognizing the value of our work.

REVIEWER 2 (468558)

- Many thanks for your revision. Unfortunately, we do not have more space to add other pictures.

If you find out any other change or correction that shall be done, feel free to contact us.

Thank you other time for your efforts.

Best regards.
