This study followed the PRISMA statements and we have added a flow chart of study selection as Figure 1. We have added the related information and removed the terms "and so on", "etc" in the method section. We have discussed the limitations on oncological data in discussion section. And we have added the intervention regimens in Table 1.

We hope that the revision is acceptable and look forward to hearing from you soon.

With best wishes,  
Cheng Fang
