Title: HER2 HETEROGENEITY IN GASTRIC/GASTROESOPHAGEAL CANCERS: FROM BENCHSIDE TO PRACTICE.

Manuscript Type: Topic Highlight

Dear Editor ,

On behalf of my co-authors, I am resubmitting the enclosed material for publication in World Journal of Gastroenterology.

The manuscript was revised as suggested by reviewers. In particular the whole paper was written by an English mother tongue (FG); it was however suitably reviewed and few modifications were made.

One of the reviewers underlined that there was absence of author's personal practice and findings. We invite the reviewer to look at the reference section as many of the cited studies have indeed been performed by our group.

Best Wishes,

Luca Mastracci
