We thank you and the reviewers for the very helpful comments. We accepted all the comments and have included our responses below. We hope the revised version is acceptable for publication.

REVIEWER EVALUATION

Comments to the Author:

Reviewer 1:

Comment 1. The subject matter of research problem is highly appreciable. It will surely make a contribution to the relevant field of research

Response 1. Thank You

Reviewer 2:

Comment 1. Dear Authors. This review is important in clinical practice, but there are some corrections or advises. review too long, with many references

Response 1. Thank You, we have shorten the text and the number of references.

Comment 2. Please take some picture of every pato-mechanism of NAFLD. (NAFLD-CVD; NAFLD-DM; NAFLD-CKD)

Response 2. Thank You. We have done it- we have added the picture

Comment 3. Put the stress of the topic in the abstract at the fist paragraph.

Response 1. Thank You, we have done it.

With best regards, Ivana Mikolasevic
