

## BIOSTATISTICS STATEMENT

**TITLE: Sarcopenia and non-alcoholic fatty liver disease: is there a relationship? A systematic review**

Data was collected by two independent investigators for the following variables: design of the study, age and sex of participants, and the presence of NAFLD. The methodological quality assessment criteria followed the guidelines according to the study design - CONSORT or STROBE.

Microsoft® Office Excel 2010 was used to store data.

Sincerely

A handwritten signature in black ink, reading "Colette Jalle Tiro". The signature is written in a cursive, flowing style.
