

## RESPONSE TO REVIEWER'S COMMENTS

I thank the reviewers for their valuable suggestions and comments. Here are answers to the queries raised.

### REVIEWER 1

1. Minor comments: - Omit the word "slowly" in the abstract.  
ANSWER- The word slowly has been omitted from the abstract
2. Introduction: Replace "restricted mobility" by "rigidity"  
ANSWER- The word "restricted mobility" has been replaced with "rigidity".
3. Shortly mention restrictions and obstacles concerning dental care already in the introduction. –  
ANSWER - Necessary changes have been made.
4. Discuss non-motor symptoms (dry mouth in some patients and drooling in others) that are relevant for dental care.  
ANSWER- A sentence has been added in the discussion and highlighted.
5. Discussion: not only the dopaminergic system is affected in Parkinson's disease and not only motor symptoms are characteristic for Parkinson's disease.  
ANSWER- The reviewer has correctly pointed out and this sentence has also been added.
