Date: May 2, 2011

Re: 2011-2012 Children's Miracle Network Research Allocations

On behalf of the Children's Miracle Network Research Review Committee, I am pleased to inform you that your application for "**Genetic Association and Function of the IL10 and IL10 Signaling Pathway in Pediatric Inflammatory Bowel Disease (IBD)**" will receive **\$30,000** in research funding from the 2010 Children's Miracle Network fundraising campaign.

It is the responsibility of the Children's Miracle Network Research Review Committee to designate research funds in accordance with the mission of Children's Miracle Network to improve the quality of life for children in need of medical care at Penn State Hershey Children's Hospital. Funding for 2011-2012 was awarded based on consideration of a number of factors including relationship of the proposal to child health and the mission of Penn State Hershey Children's Hospital, the quality of the science, the likelihood of external funding, and the ability of the PI's who previously received Children's Miracle Network funding to obtain external funding. Priority was given to junior investigators who are developing their research program and more advanced investigators with a gap in external funding of less than three years.

Your award will be available for expenditures from July 1, 2011 to June 30, 2012. In order to access these funds, please contact your budget administrator to set up an AURA on the IBIS system. You will use your own department budget number, and a fund number then will be assigned to you to access your allocation.

For the future

THE CAMPAIGN FOR PENN STATE HERSEY MEDICAL CENTER

To: Zhenwu Lin, PhD.
Department: Surgery/Pediatrics
Date: May 2, 2011 (Page 2)
Application #: 4
2011-2012 Children's Miracle Network Research Allocation

You must complete all expenditures to your account by June 30, 2012. All unspent funds as of this date will be returned to Children's Miracle Network unless a request for an extension is submitted with the attached document and approved. You may also request this form by e-mail from Marie Conley. Each investigator receiving funding during this cycle is expected to submit a one-page summary of the progress of the research and the specific research expenditures covered by the funds to the Children's Miracle Network office on or before February 1, 2012 and July 30, 2012. Acceptance of funding acknowledges a willingness of the investigator to present their research to the CMN Advisory Board and other CMN funding venues if asked, and also to present their work at Pediatric Research Day 2012. I also request that you acknowledge Children's Miracle Network's support to your project whenever appropriate.

Please direct all budget questions to Debbie Musser in the Controller's Office at x5760
