Dear Co-Editors

Xiaoyan Jiang, MD, PhD, Associate Professor, Senior Scientist;  
Thomas Kipps, MD, PhD, Professor

Please find enclosed the manuscript: "Management of unstable angina in a patient with Haemophilia A", by Carbone, et al., which we would like to submit as *Case report to the World Journal of Haematology* for consideration of publication.

All co-authors have seen and agree with the contents of the manuscript and there is no financial interest to report.

We certify that the submission is original work and is not under review at any other publication.

In this manuscript, we report a case description of a patient with mild Haemophilia A who presents with unstable angina, treated successfully with coronary angioplasty and drug eluting stent (DES) implantation without replacement of Factor VIII.

We believe that our case description could be of interest to the readers of Haemophilia Journal because it brings new lights on this interesting topic.
