Case Control Study

Effects of hypertonic saline solution on body weight and serum creatinine in patients with acute decompensated heart failure

Gabrielle Lafrenière, Patrick Béliveau, Jean-Yves Bégin, David Simonyan, Sylvain Côté, Valérie Gaudreault, Zeev Israeli, Shahar Lavi, Rodrigo Bagur

Abstract

AIM

To test the safety and effectiveness of hypertonic saline solution (HSS+F) as a strategy for weight loss and prevention of further deterioration of renal function.
