Interleukin-19 is cardioprotective in dominant negative cyclic adenosine monophosphate response-element binding protein-mediated heart failure in a sex-specific manner

Danielle R Bruns, Alexander R Ghincea, Christian V Ghincea, Yasu Taka Azuma, Peter A Watson, Michael V Autieri, Lori A Walker

#### Abstract

AIM

To investigate the role of interleukin-19 (IL-19) in a murine model of female-dominant heart failure (HF).
