**Impact of laparoscopic liver resection on bleeding complications in patients receiving antithrombotics**

**Takahisa Fujikawa, Hiroshi Kawamoto, Yuichiro Kawamura, Norio Emoto, Yusuke Sakamoto, Akira Tanaka**

### Abstract

AIM: To assess the impact of laparoscopic liver resection on surgical blood loss, especially in patients with antithrombotics for thromboembolic risks.

METHODS: Consecutive 258 patients receiving liver resection at our institution between 2010 and 2016 were retrospectively reviewed. Preoperative antithrombotic
