2. Revision has been made according to the suggestions of the reviewer

(1) None

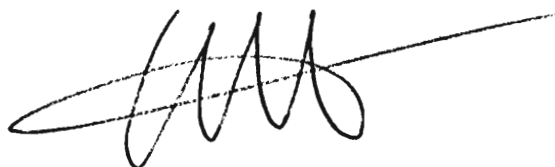

(2) A reference added and changed from Twenty-six to twenty-six

(3) As the reviewer suggested, I added a sentence to state that the UCEIS is relatively new, which may be the reason for the low number. This is highlighted in yellow also.

As for the suggestion of shorten the manuscript, only one reviewer came back with this suggestion and there was no word limit on this paper. Furthermore, the decision was made not to do so in order to preserve the narrative of the paper.
