Comparison of urgent CBD stone removal by ERCP at 1st ERCP versus delayed stone removal as a response to changes in the Japanese management guidelines. On page 12, last paragraph is there a typo error on the reasons for not doing additional EST? Should "...an off-period of more than 5-7 days" be corrected to "...an off-period of less than 5-7 days"?

Although this is a small study, it was well written. We need bigger study to come to a conclusion, but I found this one a beginning.
