Basic Study

Polymorphisms in oxidative pathway related genes and susceptibility to inflammatory bowel disease

Nezha Senhaji, Sellama Nadifi, Younes Zaid, Aurora Serrano, Daniel Arturo Leon Rodriguez, Nadia Serbati, Mehdi Karkouri, Wafaa Badre, Javier Martín

Abstract

AIM

To investigate whether common variants in the oxidative pathway genes influence inflammatory bowel disease (IBD) risk among Moroccan patients.

METHODS

The distribution of (TAAA)_n_rs12720460 and (CCTTT)_n_rs3833912 *NOS2A* microsatellite repeats, *HIF-1A*_rs11549467 and *NFKB1*-94ins/delATTG_rs28362491 was analyzed in 507 subjects grouped in 199

Match Overview
