Dear Editor,

Please find enclosed the edited manuscript in Word format (38575 main text revised.doc).

Title: **Hepatitis C and renal transplantation in the era of new antiviral agents**

Author: Maurizio Salvadori, Aris Tsalouchos

Name of Journal: *World Journal of Transplantation*

ESPS Manuscript NO: 38575

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 All tables and figures are in word format and decomposable (click twice on each tab or fig)

3 Revision has been made according to the suggestions of the reviewers

Rev 03475636

- 1) Discussion on HCV-positive donation in HCV positive recipients has been added to the manuscript
- 2) The interaction between sofosbuvir and amiodarone has been added as well as a new reference

Rev 00012216

1. We have now discussed the association of sofosbuvir and velatapasvir. The association is now added also in tab II
2. We have discussed the relevance of this association for rescue therapy (2 references have been added)
3. The association glecaprevir/pibrentasvir has been added in tab II
4. Pariteprevir has been written instead of ABT450
5. A short discussion of sofosbuvir risks in patients with low GFR has been added (one reference has been added)
6. The latest WHO estimates are now present in the manuscript

Rev 00761439

1. A table with the main literature studies with DAA therapy in patients HCV positive and renal dysfunction has been added (see tab IV)
2. HCV prevalence has been updated both in text and in the abstract
3. In the paragraph "DAA-BASED Therapies" a table has been added to clarify the new DAA agents (see tab I)
4. SOF in patients with a low eGFR has been added at pag 12 and in the table VI
5. References 69, 70, 83 has been added
6. Velpatasvir has been added in the text (pag 11) and two references have been added
7. Fig 2 has been delated
8. EASL and AASLD guidelines for patients with poor renal function have been added (tab V and VI)

All the modification are now in red.

We thank our reviewers principally for their comments that helped us to improve the quality of the manuscript

Thank you again for publishing our manuscript in the *World Journal of Transplantation*.

Sincerely yours,

Maurizio Salvadori
