

Informed Consent statement

Name of Journal: World Journal of Gastroenterology

Manuscript Number: 39934

Title of Project: C-peptide as a key risk factor for non-alcoholic fatty liver disease in the United States population

The project uses the publicly available data from the Third National Health and Nutrition Examination Survey (NHANES III), which is conducted by the National Center for Health Statistics (NCHS). In NHANES III, the consent form was signed by participants in the survey.

Best regards,

A handwritten signature in blue ink, appearing to read 'Amporn A'.
