### *Observational Study*

**Colorectal cancer screening use among insured adults: Is out-of-pocket cost a barrier to routine screening?**

**Abhilash Perisetti, Hafiz Khan, Nayana E George, Rachana Yendala, Aamrin Rafiq, Summre Blakely, Drew Rasmussen, Nathan Villalpando, Hemant Goyal**

### **Abstract**

**Background:** Objectives of this study were: 1) to describe the characteristics of adults who needed to see a doctor in the past year but could not due to the extra cost; and 2) to assess the impact of limited financial resources on the receipt of routine fecal occult blood test, sigmoidoscopy, or colonoscopy for colon cancer screening among insured
