## Stem cell transplantation for treatment of end-stage liver disease

Wu DB *et al.* Stem cell for ESLD therapy

Dong-Bo Wu, En-Qiang Chen, Hong Tang

### Abstract

The past two decades have witnessed an explosion of research and clinical application of stem cells, transforming the field of regenerative medicine. Stem cell transplantation has already been performed to treat patients with cancer, liver diseases, and various kinds of chronic diseases. Indeed, stem cell-based therapies are effective for many diseases, including providing
