### SPECIFIC COMMENTS TO AUTHORS

The manuscript is good written. The authors made a good study about the challenges of GTN diagnosis and treatments. However, I suggest the following: 1. Make a critical and short statement at the end of the abstract about the conclusion of the overall review work

### SPECIFIC COMMENTS TO AUTHORS

The authors shared their point of view on current approach to assesment and treatment of patients with GTD with different stages. This "editorial" is original, clear, and understandable. Probably, if they could add a table of algorithm summarizing the
