SPECIFIC COMMENTS TO AUTHORS

decent manuscript reviewing diagnosis and treatment of cuboid fractures. A paragraph on stress fractures should also be included. Role for subchondroplasty? requires language polishing

SPECIFIC COMMENTS TO AUTHORS

This is a review article on #An update on diagnosis and management of cuboid fractures. The authors reviewed this topic too descriptive, but informative. I would suggest - change the title to be # The cuboid fracture: How to diagnosis and management - or please add the recent update literature / and future trend on this condition
