Listening to music during arteriovenous fistula surgery alleviates anxiety: A randomized single-blind clinical trial

Cimen SG *et al.* Music alleviates anxiety for fistula surgery

Sanem Guler Cimen, Ebru Oğuz, Ayse Gokcen Gundogmus, Sertac Cimen, Fatih Sandikci, Mehmet Deniz Ayli

Abstract

BACKGROUND

Both end-stage renal disease and being wait-listed for a kidney transplant are anxiety-causing situations. Wait-listed patients usually require arteriovenous fistula surgery for dialysis access. This procedure is performed under local anesthesia. We investigated the effects of music on the anxiety, perceived pain and satisfaction levels of patients who underwent fistula surgery.
